SUMMARY

Senior SAP Technology Consultant with 13+ years of experience spearheading digital transformation and end-to-end application development on the SAP BTP and S/4HANA landscape. A proven architect of high-impact, full-stack solutions, leveraging deep expertise in the Cloud Application Programming Model (CAP), SAP ABAP and Fiori/UI5. Specializes in automating and optimizing business processes through BTP Workflow and Build Process Automation, delivering significant efficiency gains and business value.

Core competencies:

BTP Full-Stack Development: Expert in building scalable, cloud-native applications using CAP Node.js, OData services, and modern UIs with Fiori Elements and freestyle SAPUI5. Well-versed in BTP services, Cloud Foundry, and DevOps practices.

Process Automation & Workflow: Proven expertise in designing and implementing end-to-end business process automation using BTP Workflow (Neo & Cloud Foundry), Business Rules, and Build Process Automation, complemented by custom inbox application development.

SAP Fiori & UX Leadership: Extensive experience in S/4HANA Launchpad design and configuration from scratch, including Fiori activation, content management, and security. A history of delivering high-quality, custom Fiori applications for major clients across various industries.

Database & Backend Proficiency: Strong command over HANA Cloud development, including creating and managing tables, views, synonyms, flowgraphs, and configuring security through grants and HDBROLES.

Solid foundation in ABAP OO, BAdIs, and enhancements.

Integration Architecture: Deep architectural knowledge and hands-on experience with SAP PI/PO and CPI, proficient in Proxy, SOAP, REST, SFTP, and IDOC adapters to seamlessly connect SAP and non-SAP systems.

BTP Build Suite: Actively developing knowledge and skills in the low-code/no-code domain with BTP Build Apps, Build Process Automation, and Build Work Zone to enable rapid application development and citizen development initiatives.

A certified SAP ABAP developer with a strong understanding of RISE with SAP and a passion for leveraging the latest SAP technologies to solve complex business challenges and drive innovation.

SKILLS

CAPM

- XSUAA Security Configurations , Authorization and Authentication Concepts
- SDI Integration with S4 and CAP using flowgraph
- CAP Integration with Build Process automation
- Deep Node js experience
- App Router Configurations.
- Generic and Custom Handlers Implementations
- Actions, Functions and CDS Queries
- Fiori Elements
- Draft Fiori App implementations
- Managed and unmanaged associations implementations
- batch job handling
- GIT Repository integration
- Exposing CAP Service end point via destination
-

BUILD PROCESS AUTOMATION- WORKFLOW / BUSINESS RULES

- Development Environment : Cloudfoundry and NEO
- Custom workflow Development
- Business Rule Development
- Workflow Administration
- Custom Inbox Development
- Rule Maintenance
- KPI
- My Inbox Configurations
- Custom UI Task development for approval process using Workflow UI module in BAS
- Actions and trigger generations and integrations
- environment creation
- visibility dashboard creation and reporting

ABAP ON HANA

- Consumption of SAP HANA Objects in ABAP.
- code-to-data paradigm.
- ABAP Database Connectivity API (ADBC).
- ABAP Managed Database Procedures (AMDP).
- Core Data Services (CDS) Views.
- CDS Annotations
- Full Text Search with SAP HANA.
- Fuzzy search for search helps with SAP HANA.

PI | PO | BPM | HANA CLOUD INTEGRATION

- End to End Integration of most of all possible combinations of scenarios
- Good Troubleshooting skill based on business needs.
- Good knowledge on PI Architecture and System Configuration
- ABAP - PI handling capability.
- Good Mapping skills and problem solving capability.
- Performance tuning by adopting best practice integration scenarios

UI5/FIORI

- Development environment : eclipse ,web IDE and BAS.
- S4 Migration , S4 Launchpad and security.
- views development hands on : xml and javascript.
- Mobilizing Fiori® Apps With Cordova and Kapsel
- Hybrid Native App from UI5/Fiori® App to do Barcode Scan With Cordova and SCP
- Hybrid Native App from UI5/Fiori® for Offline feature
- Deep understanding of libraries and UI controls.
- Building UI controls, Fragments.
- Navigation,Component.js,Router,Routing configuration,Manifest.json.
- Controller Extension,Controller Replacement.
- Handling Navigation and Lifecycle Events.
- Extending and enhancing Fiori Apps.
- Scaffolding template and Custom controls.
- XSJS,XSA

SAP ABAP

- ABAP/4 Reporting: Classical and ALV reports.
- OO ABAP: Global, Local, Abstract Classes, Interfaces, Events & exceptions
- Data Dictionary: Database tables, Views, Data element, Domain, Search Help and Lock Objects.
- Modularization Techniques: Subroutines, Function Modules, Methods.
- BAPIs, RFCs, BADI,BDC, ABAP Query.
- oData development and CDS View creation.

WORKFLOW

- Workflow basic configurations.
- Method,work item and events.
- Agent determinations.
- Container,Bindings and Conditions.
- Debugging and monitoring workflows.

EDUCATION

SAP CERTIFIED DEVELOPMENT ASSOCIATE – ABAP WITH SAP NET WEAVER

2015

BACHELOR OF ENGINEERING IN COMPUTER SCIENCE AND ENGINEERING

ANNA UNIVERSITY

2012-01

2008 - 2012 Bachelor of Engineering in Computer Science and Engineering
Anna university, Chennai - India
with 8.35 CGPA

PROJECT PROFILE
